UP TO  
10 W

ELVeS® Radial®  
swift

POWER  
UP TO  
12 W

ELVeS® Radial®  
swift 2ring

## Why to use ELVeS® Radial® Swift Fibers?

- Just 5Fr Introducer Size
- or Easy access via 14GA catheter
- Well known FUSION® safety concept

The swift fibers are designed to complete our product range. You decide upon access by direct puncture via 14GA canula or using an ordinary 5Fr introducer set (instead of 6Fr).

Adapt flexibly to the particular vein in terms of energy, power and approach.

Placing the 14GA catheter

Entering the vein

Starting laser treatment

### Fibers\*

REF	Product	PU **	length [m]	ø fiber tip [mm]	CI***
